Aluminium Lift & Slide Patio Door

stellarTM
ALUMINIUM SYSTEMS

The Stellar Lift & Slide patio door is the perfect solution for a room with an interrupted view. With its incredibly slim profiles it makes the most of the glass area, delivering the coveted light and airy feel and clean aesthetics. The system's strength allows sash widths up to 3 metres wide via a range of interlock sizes (as slim as 50mm) to achieve the best combination of sightlines and size capability - ideal for applications where a wide opening is desirable.

-  Double or triple glazed
-  Wind load resistance to 1200Pa
-  Water tightness to 250Pa
-  Air permeability to 600Pa
-  U-values as low as 1.4W/m²K / 0.9W/m²K (triple glazed)
